WHO AM I?

Over a decade of experience in various engineering roles (data, ML, full-stack and management).

- Track record of building and working on successful data & AI/ML products.
- Helped shape & experienced in leading high-growth environments (start-up, scale-up, enterprise).
- Extensive team management experience and up, i.e. director, VP & CTO experience.

WHAT DO I BRING?

Technical leadership that stays hands-on, across AI-native products and the teams that build them.

- Built and grew high performing AI-native technical organisations (4 - 30 FTE).
- Experienced in designing and hands-on building of data & AI/ML first products.
- Ability to dive into end-to-end product building (back-end, front-end, AI, ML, data).

Check out my [website](#) to learn more about me.

EXPERIENCE

Palm

11/2024 – present (1 yr 11 mos)

CTO

7/2026 – present

Building an AI-native company re-imagining enterprise treasury & finance.

VP of Engineering

5/2025 – 6/2026

Built a next-generation AI-native engineering organisation, shipping continuously with AI workflows.

Data & AI Lead

11/2024 – 4/2025

As first data hire, led data & AI products through hands-on back-end, data and ML engineering.

Achmea

7/2024 – 10/2024 (4 mos)

Senior Machine Learning Engineer

contract

Kick-started the MLOps platform Achmea uses for real-time pricing & pricing model updates.

Solvimon

7/2023 – 6/2024 (1 yr)

Founding Engineer, Data

full-time

Part of the founding team. Built the data platform powering reporting, dashboarding and analytics, plus the data team behind it.

Adyen

7/2018 – 7/2023 (5 yrs 1 mo)

Director of Engineering

1/2023 – 7/2023

Managed managers of several ML and Analytics teams (30 FTE), driving hiring and engineering strategy.

Engineering Manager

1/2021 – 12/2022

Built Adyen's first ML product teams: conversion optimisation, authentication and fraud detection. Hiring manager for Data Science.

Senior Machine Learning Scientist & Engineer

7/2018 – 12/2020

Led Adyen's first ML use cases into production, lifting conversion across the global merchant base by hundreds of millions in revenue.

ING Bank

6/2016 – 6/2018 (2 yrs 1 mo)

Data Scientist

full-time

Part of the Global model development team, building ML models for asset and liability management: savings value and prepayment risk.

EDUCATION

Master of Science in Stochastics and Financial Mathematics | University of Amsterdam

2014 – 2016

Bachelor of Science in Mathematics | University of Amsterdam

2011 – 2014

SKILLS

Languages

Python · Go · TypeScript · R

Tech

Claude Code · Codex · Google Cloud Platform · Azure · Databricks
